NO LONGER SUGARY, BUT STILL CORNY!

Shasta Beverages Inc. of Hayward, Calif., has recently introduced a high fructose corn sweetener to replace all ordinary refined sugar in its regular line of soft drinks.

The pure, natural sweetener is sweeter than ordinary sugar and reduces calories by as much as ten percent per serving, since less is needed to produce the right sweetness.

In addition, taste tests indicate that consumers prefer the new sweetener over ordinary sugar, claiming that the lighter sweetener enhances soft drink flavors.

Relying on the abundant U.S. corn crop for its supply of the sweetener, the corn refining industry is looking to replace some of the 2.6 million tons of ordinary refined sugar currently being used in the soft drink industry today.

Al Curven sends us the above clipping from a 'local' newspaper.

MONTH. IF YOU HAVE ANY ADDITIONAL INFORMATION ON THESE TYPE OF CANS PLEASE SEND IT TO US QUICKLY SO WE MAY USE IT IN THE NEW SODA CAN BOOK.

DEALS - REFUNDS - OFFERS - COMMEMORATIVES - SPECIALS BY: PAUL BATES, CAN WORLD

One of the more valuable speciality collections for pop can collectors is the Deal/Offer/Commerative cans. To follow is a list of cans from this category that are in my collection. In the Fall of this year I will publish a book on pop cans and one of the sections will list deals, offers and commerative cans. Help from all of the collectors will be appreciated in adding to this list to make it as complete as possible. Send additions to Fred Bogdan at NPCC or to Paul Bates, Can World, Ridgecrest Drive, Goodlettsville, TN 37072.

From "The Brewers Bulletin" September 13, 1979, comes this note sent in by the Crocettas.
